## Professional Summary

Full-Stack MERN Developer with experience building scalable enterprise applications, AI-powered platforms, and multi-tenant SaaS systems. Skilled in React.js, Node.js, MongoDB, Next.js, and REST API development with strong expertise in authentication, RBAC, encryption, deployment, and performance optimization. Passionate about developing secure, modern, and user-focused web applications.

## Technical Skills

**Frontend**    HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS  
**Backend**    Node.js, Express.js, MongoDB, SQL, Python, FastAPI  
**Tools**        GitHub, Postman, JWT, VS Code, Nginx, MongoDB Atlas  
**Deployment**    Ubuntu Server, Nginx, VPS Hosting

## Experience

**Junior MERN Stack Developer** Nov 2024 – Present  
*AlgoScript Software Pvt. Ltd. — Surat, India*

- Developed scalable full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built responsive and modern user interfaces using React.js, Tailwind CSS, and JavaScript.
- Designed and integrated RESTful APIs to improve performance and application reliability.
- Implemented authentication and authorization using JWT and Bcrypt.
- Worked with MongoDB Atlas for database design, optimization, and management.
- Deployed and maintained applications on Ubuntu servers using Nginx.

## Projects

**Enterprise Import-Export & Compliance Platform** Mar 2025 – Present

- Built a multi-tenant SaaS platform with RBAC for super-admins, company-admins, and staff.
- Developed real-time compliance dashboards with shipment tracking and license-balance alerts.
- Implemented AES-256-CBC encryption for securing sensitive corporate credentials in MongoDB.

**AI-Powered Recruitment & Proctoring Platform (ReAnalytics)** Mar 2025 – Present

- Developed a multi-portal recruitment platform for candidates, recruiters, and administrators.
- Implemented AI-based proctoring using MediaPipe FaceMesh for gaze and motion tracking.
- Integrated semantic resume screening and AI-driven technical interview workflows using Llama-3.

**Smart Parking Spot Web App** Aug 2025 – Mar 2026

- Developed a location-based parking management system with QR verification and booking workflows.
- Integrated real-time dashboards for users, guards, and administrators.
- Built map-based parking spot discovery and vehicle check-in/check-out tracking.

**Hotel Management System** Feb 2025 – Aug 2025

- Built a multi-hotel management platform with role-based access control.
- Automated guest check-in/check-out workflows with dynamic pricing support.
- Integrated third-party automation using Puppeteer for guest data processing.

**E-Commerce Website with Admin Panel** Nov 2024 – Feb 2025

- Developed a full-stack e-commerce platform with order tracking and product management.
- Integrated secure Stripe payment gateway and JWT-based authentication.
- Built scalable REST APIs and administrative dashboards for platform management.

## Education

---

### **Bachelor of Computer Applications (Web Development)**

**2022 – 2025**

*Veer Narmad South Gujarat University — Surat, India*

- CGPA: 8.10
- First Class with Distinction

### **Higher Secondary Certificate (HSC)**

**2020 – 2022**

*Gujarat Secondary and Higher Secondary Education Board — Gujarat, India*

- Percentage : 93.29
- Commerce Stream
